International Political Outlook Now a Factor of Strength. just started in the Supreme Court

TIME FOR CAUTION ENDING

Public Still Shy, but Danger Now Is of Too Great a Rush ants by Heinze. When It Starts.

(By Cable to The Tribune, 1

London, Aug. 17.-This is the holiday couraging to note that the recent good leaving a balance, with interest at 6 per and explain the action of the market. pirits and buoyant tone continued, cent. of \$900,384. The Cromwell complaint Balkans brought the feeling that all danger of European complications had Green Trust Company. been avoided and that the waste of money the to the war and the mobilsations will now cease.

Added to this is the growing optimism as to a peaceful settlement of the differences between Mexico and the nited States, while all the conditions of the present situation summed together lead to the belief that a period of easy money conditions and accumulating capital will succeed to the stringency of the last several months. This feeling was greatly assisted by the receipt of more than \$15,-600,000 gold from South America last week, with the knowledge that another \$10,000,000 is on the way, and by the action of Secretary McAdoo in offering to release a large sum from the Treasury in the autumn to move American

Both the political and the monetary conditions have improved remarkably in the last few weeks, and now there is much less need for caution. Doubtless the conclusion of the war will soon be followed by the issue of several large government loans, which will attract to the banks the great part of the huge Other cities, five days... sums hearded during recent months, and will tend still further to relieve conditions in Continental centres.

The public is still holding off from the stock markets, but this state of affairs is likely to change any minute when the public, which has so long been frightened, becomes reassured. There is real danger of too great a rush when it does set in, and of prices souring too high and too quickly.

The arrival of gold from South America last week, with the prospects of more in the immediate future. caused discounts to weaken a trifle. Ten million dollars of the \$15,000,000 from Brazil and Argentina stayed in London, and discounts eased off to 3% per cent for two months' bills, 3 13-16 for three months' bills, 4 for four menths' bills and 4% per cent for six months' bills. Call loans yesterday ruled at 14 and weekly fixtures at 3

The Bank of England's stock of goli increased last week \$10,260,000, to be be seen call to be seen \$11,740,000, to \$149,725,000, and the Cash reserves proportion of reserve liabilities was

THE PRINT CLOTH MARKET

Moderate Trading Last Week-Big Mill to Resume Operations.

moderate trading in the cotton goods by multiplying the number of ounces by 4.2478. markets last week and it is reported that the sales reached 150,000 pieces. Prices have changed little, although 27inch lexis goods are held at 2%c a yard, sto a decrease of 1-16c, while 66x52s have a Jul quoted value of 254c a yard, a reduction Exi

The main feature of the week's trading was the purchasing of goods by a local proker for the American Printing Company's plant. It is said about 25,000 pieces ican into the market has given rise to the opinion by some that the surplus of goods which it had on hand some time age is dwindling. Another item of interest was the announcement made by the Iron Works Mills plant that the big concern would resume operations on August 35, and this was welcome news to the 5,000 operatives employed there. This concern has been closed for thirteen weeks. On the whole the week's trading has given assurance to manufacturers and brokers that market conditions are sound, and if tariff matters were only finally set-

The cotion yarn markets remained firm and prices were unchanged for most counts. Concessions were few and were made only on certain counts which are not active.

tled business would be larger.

The raw cotton market was depressed a little and the changes had some, though little, effect on both cloth and yarn val- Excess of exports over imp ues. The week closed with the demand for all styles uneven, with certain goods having a fair run. The following are the quotations for last week: 28-inch, 64x64. %c; 27-inch. 64x60, 34c; 28-inch, 64x60, 31/2c; 27-inch, 56x16, 274c; 27-inch, 56x52, 274c 35 s-inch, 64x64, 51cc, and 39-inch, 68x72,

reports that with spot corn at 85 cents and wheat at 70 cents, the smaller grain was being used as feed for livestock, and Kansas City reported a rush of stock to that market owing to the scarcity and high cost of feed. How the long interest corn was extended is shown by the fact that on every bulge of importance holders who had good profits in sight

The spot market here felt the effect of the rise in futures, going to 83 cents, as

ing boosted by the strength in corn in els larger than a year ago. Early trading was irregular, but the market steadjed as corn advanced, and while the up ward movement was slow, it more than offset the reactions. Another source of gregated 7,518,000 bushels, including wheat

Reports from the interior are that farmers are holding their wheat in expectation that there will be a large demand to make up for the shortage in corn, but harvesting is active in the bushels larger than a year ago, although the possibility of damage is still to be reckoned with. Spot wheat, new crop, in the local market closed at 9515 cents, as against 25% cents a month ago for old

Oats have been heavy, with the unexpectedly favorable government report a depressing influence. Some of the new crop is running poor, testing only twentytwo pounds to the bushel, but interior receipts were heavy, the visible gaining 26,000 for the week. As with wheat, it was held that the great shortage in corn would inure to the benefit of the oats rop, and late prices were on a steady 17.4 basis, with the tendency upward. No. 2 white in the local spot market closed at 19 cents, as against 41% cents a month ago and 40% cents last year.

Cotton's Late Advance.

There was not much doing in the cotton market for the first three days of the hold steady for immediate delivery, alweek; price changes were small and bulls though some manufacturers seem disposed Sixaois paid little attention to pessimistic weath- to offer concessions because of the decline or and crop reports from Texas and in the raw material. Sales of leather are Oklahoma. The tage they could, but the steadiness of the tories are well engaged on old orders and level for the season made on Thursday. The enlarged volume of railroad traffic is only ten points below the close of the indicated by diminishing idle freight cars previous Saturday. The whole situation and by statistics of gross earnings, which gave the impression that the trade was during the first week of August were 4.2 looking on the reports of deterioration of per cent in excess of last year's and 10.9 tive effect

eral trade was the shortness of the local spectively. stock of contract cotton, only 21,000 bales | An extract from "Bradstreet's Review being available for August and September is published: deliveries. There was some covering on Thursday, but the market did not wake til Friday, when Liverpool jumped chiefly because of the waning of midsumsix English points and held the advance. mer and the approach of the fall season while the Giles report here confirmed the House sales have improved at most leadstories of heavy damage. Then came a ing markets, thanks to the presence of rush to buy cotton, and prices went up rapidly, the market closing strong. On held its own, and sentiment as to distribu Saturday the scramble for cotton continued, and prices went into new high optimistic, though it must be admitted ground for the movement, with the bulk that the situation in the Southwest is of the demand credited to covering by somewhat spotted, as the result of drouth shorts. Late reports of a change in and heat damage to the corn crop. In weather conditions in the drouth districts that section buyers are visiting the leadcaused some reactions, but the close still ing markets in smaller numbers than in

showed a gain for the day. The spot market lost 10 points for the position to purchase conservatively, at week, going to 11.90c for middling up- least until crop developments become land, against 12.30c a year ago.

Coffee Market Marks Time.

There has been a comparatively quiet market in coffee, but the tendency has must be noted that the Southwest's winand with switches from September to There is more activity in textiles at New and with been a little better buying by the coun-try, although the trade is still far from doing better, and even though most secsatisfactory, and reasters are buying only tions still are quiet views as to the from hand to mouth. Brazilian markets future certainly are more cheerful, have held about steady for cost and thanks to the excellent prospects for a freight orders, but receipts at primary large cotton crop and to a heavy yield of points have been full and stocks are corn, which obviate the necessity of purhas been the lack of outside speculative Trade in the Fer Northwest is seasonably interest, there being a general disposition normal, though lumber is very dull and or the part of outsiders to await some some mills have been temporarily closed development which would create more in order to preclude accumulation." onfidence either way.

HARBURGER BOOKING FAILS GOVERNMENT DRAWS COLOR LINE, IS CHARGE

Protest Filed with President Says Segregation of Employes Is Race Discrimination.

LETTER SENT TO WILSON

National Association for Advancement of Colored People Fears It Will Tend to Increase Prejudice.

The National Association for Advancement of Colored People, of which Moorefield Storey is president, has sent a letter against segregation of negro employes in the departments at Washington. The association contends that the administration's pollcy in this respect amounts to an nsulting race discrimination, The directors of the association asser

that such discrimination by the govern ment, from which the negro naturally looks for his broadest protection under the Constitution, will tend to increase prejudice against him in sections where he is looked upon as an infertor and lead to his greater humiliation and persecu-

They point out that never before has the government discriminated against its civilian employes on the ground of color, such action hitherto being confined to the individual states. The letter follows: 'The National Association for the Ad-

vancement of Colored People, through its board of directors, respectfully protests against the policy of your administration in segregating the colored employes in the departments at Washington. It ree alizes that this new and radical departure has been recommended, and is now being defended, on the ground that by giving certain bureaus or sections wholly to colored employes they are thereby rendered safer in possession of their offices, and are less likely to be ousted or discrimito be fallacious. It is based on a failure to appreciate the deeper significance of the new policy, to understand how farreaching the effects of such a drawing of may be, and how humiliating it is to the men thus stigmatized.

Federal Discrimination Charged.

"Never before has the federal govern ment discriminated against its civilian employes on the ground of color. Every such act heretofore has been that of an the Capitol and of the federal flag has drawn colored people to the District of Columbia in the belief that living there. under the shadow of the national gov ernment itself, they were safe from the on a m | persecution and discrimination which follow them elsewhere because of their dark skins.

"To-day they learn that, though their *Mauretanis, Livergool, Cun 2:30 pm 1:00 am Rrance, Havre, France, 1:00 am 1:00 am Zulfa, La Guavra, RDWS \$50 am 12:00 m Bermudan, Bermuda, Queb 2:00 am 12:00 m Bermudan, Bermuda, Queb 2:00 am 12:00 m Cacapa, Jamaica, U Fruit, 3:00 am 12:00 m Conus, New Orleans, Ec Pac 12:00 m Santiago, Galveston, Mall. 1:00 pm for all citizens, has established two for all citizens, has established two classes among its civilian employes.
